T4P: Tools for Patient-Oriented Research

April 15, 2019 | 12:30 - 4:30 PM

Learn More: bit.ly/T4PStPaul

Location: [Conference Centre, St Paul's Hospital, Vancouver, BC](#)

Patient-oriented research supports patients working with research teams – bringing their knowledge and expertise to the table to help inform the what, how and impact of health research.

T4P provides research teams with exposure to existing tools and resources for patient-oriented research.

- This event is free & lunch will be provided
- This is an interactive workshop and participants will be asked to bring a laptop to this session
- Registration required

Presented in partnership with:

CHÉOS

Centre for Health Evaluation
& Outcome Sciences
